Zephyr Lounger

Drum Planters

# Our Story

Established in 1992 by husband and wife, Gordon and Susan Tait, Tait began in a small factory in Melbourne, Australia. Gordon, a sheet metal craftsman, and Susan, a creative textile designer, noticed an absence of well-designed and made outdoor products. 30 years later, Tait's pieces have become icons of contemporary Australian design, renowned for their durability and longevity.

Proudly manufacturing 95% of their products in Australia, Tait credits the high performance and long lifespan of their pieces to their passionate and skilled craftspeople. With each piece made to order locally; there are many options for customisation of colour, material and finish, with the added benefit of short lead times. Tait's local, made-to-order model means fewer resources are wasted, and most products can be refurbished throughout their lifetime.

# Authentic Australian Design

Nurturing and investing in authentic Australian design is part of Tait's DNA. Collaborating with Australian designers, Tait produce collections which enhance our connection with the outdoors. Each Tait product is designed to embody luxury, longevity and low-maintenance; and are engineered with materials which are both beautiful and high-performing.

Symbolising their proud heritage as makers, a Tait 'makers mark' appears on each piece. This mark honours Tait's passionate designers and craftspeople, while revealing the authenticity of the piece. Furthering their commitment to authentic design, Tait are proud members of the AUTHENTIC DESIGN ALLIANCE®, a social enterprise who fight design theft and promote the value of investing in authentic design.

Tait's Makers Mark

# Collections

Designed and made to celebrate Australia's sublime outdoor lifestyle, and to withstand the harsh Australian elements

Trace Armchair

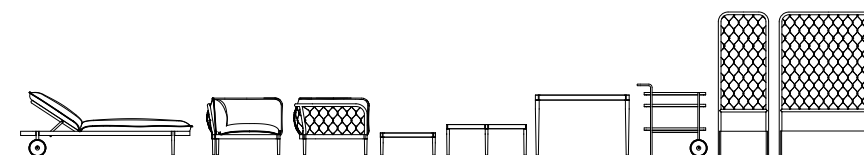

# Trace

DESIGNED BY ADAM GOODRUM

You don't often hear outdoor furniture described as sexy, but the voluptuous curves and sumptuous cushioning of the Trace collection beckon you to come, sit and stay a while... Engineered with high-performance materials, Trace brings the luxury of indoor lounging to the outdoors.

Top Left: Trace Sofa, Coffee Table & Armchairs  
Bottom Left: Trace Dining Table & Bench with Tidal Chairs

# Jak & Jil

DESIGNED BY JUSTIN HUTCHINSON

Light and airy, yet incredibly strong, Jak & Jil are Tait's most iconic duo. With an elegant silhouette and signature fine-lined form, Jak & Jil make a timeless addition at home, in the workplace or for hospitality.

Left Page: Jak Chairs & Jil Table 11500

# Zephyr

DESIGNED BY CHARLES WILSON

A 'Zephyr', a gentle, uplifting breeze, is a favourite with sailors and a phenomenon that draws parallels to the windswept, graceful lines of the Zephyr Lounger. Constructed with a stainless steel frame and sling-like, marine-grade upholstery, Zephyr's outdoor performance not only matches the resilience of a yacht but sitting in one might lead you to believe you were about to sail away...

[More Zephyr](#)

Left Page: Zephyr Lounger with High-Back & Arms

# Volley

DESIGNED BY ADAM GOODRUM

Channeling Australia's obsession with tennis, Volley features netted mesh, a circular frame and roped arm details. Offering the perfect vantage point to stay cool while you take in all the action, Volley has the endurance to win game, set, and match!

# Linear

DESIGNED BY TAIT

While elegantly understated, look closer and you'll see why Linear has become a Tait classic. With its distinctive irregular slats and optional wheels for added functional mobility, Linear puts a new spin on the classic outdoor setting. Featuring materials selected for their sustainability and durability; and showcasing impeccable craftsmanship, Linear will become the centrepiece for all your gatherings.

[More Linear](#)

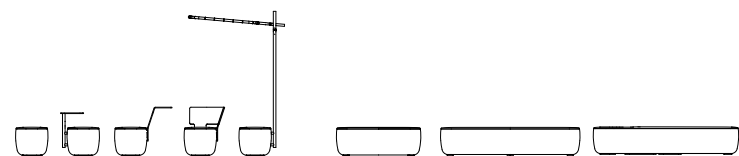

# Scape

DESIGNED BY ADAM GOODRUM

Scape is designed to encourage connection between communities and enhance our relationship with the natural environment. Reminiscent of flowing rock formations, the seating elements allude to the uninhibited nature of coastal landscapes. Scape's glass-reinforced concrete modules may be customised with additional components and planting options.

# Seam

DESIGNED BY ADAM CORNISH

Through a series of cuts, folds and joins, Seam is formed much like a tailored garment. Revealing the chair's signature design feature, a refined 'seam' along the chair's spine adds ergonomic comfort and flexibility. Constructed with anti-corrosive aluminium and stainless steel, the Seam collection is as robust as it is refined.

# Breeze

DESIGNED BY TAIT

Breeze - so named for its airy woven-wire design, keeps the vibe cool and relaxed all Summer long. While keeping a low profile, Breeze is as timeless as a piece of mid-century architecture. Available in a range of modular components, you can design your most ideal outdoor lounging scenario with Breeze.

# Tidal

DESIGNED BY TRENT JANSEN

Inspired by Australian surf culture, Tidal takes you back to the sun-streaked summers of the 1970s. Tidal reveals a flowing wire frame, depicting the contours of wave formations and the markings of receding tidal lines. Engineered with stainless steel, the Tidal collection is built to withstand coastal and poolside settings.

# Tait Planters

With the introduction of greenery to your space enhancing wellbeing in the workplace and the home, Tait offer an assortment of hardy homes for our leafy friends. Tait's planters are formed with anti-corrosive aluminium, are available in a range of sizes and colours, and offer options for easy mobility with sleek concealed castors.

[More Planters](#)

## Nano

DESIGNED BY TAIT

With its timeless profile, Nano's triadic structure delivers a powerful shape and stately silhouette. Keep Nano clean and minimalist with an aluminium top; functional and practical with a compact laminate top; or layer on the luxe with a Carrara marble or Black Granite top.

Above: Nano Side Table

[More Nano](#)

## Lily Tray Table

DESIGNED BY NANCY JI

The winning design of the 2016 Mercedes-Benz Design Award by Broadsheet, the Lily Tray Table blends the function of both tray and table. Available as a coffee table or side table, the top is effortlessly removed to become a serving tray and reveals a secondary tabletop underneath. Conceptualised from the lily pad, the Lily Tray Table enhances the outdoor dining experience.

# Kink

DESIGNED BY TAIT

The first thing that strikes you when you feast your eyes on Kink - a deliciously modern timber outdoor table - is the stunning treatment of line and form. The transfixing repetition of the sustainable Spotted Gum slats cascading over both ends of the table and bench, supported by folded sheet metal frame creates a striking form.

[More Kink](#)

# Tilt Outdoor Kitchen

DESIGNED BY JUSTIN HUTCHINSON

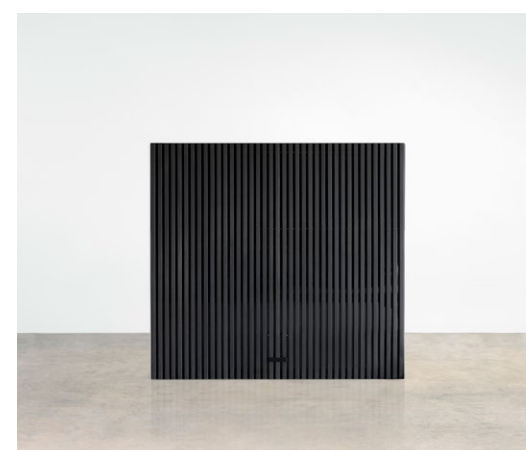

The Tilt Outdoor BBQ Kitchen combines Tait's love for backyard living and barbecuing in a good looking and compact, multi-functional package. Whether your outdoor area is large or small, a balcony, expansive terrace, rooftop, or even a corporate environment, Tilt is ready for action.

# Flint

DESIGNED BY ROSS GARDAM

Sophisticated, sleek and sturdy, Flint's strap-like legs intelligently support the solid timber tabletop. A bit of an all-rounder, Flint is popular for use in residential, public space, commercial, hospitality and education projects. The tabletop and bench seat are available in either Spotted Gum or Accoya®, with framework available in a range of UV stable powder coats.

# Good One

DESIGNED BY ALASTAIR KEATING

With its signature punched cross symbol and industrial-chic looks, Good One has long been a go-to for its cool practicality. Formed with aluminium sheet, Good One is lightweight but seriously strong. Uncomplicated, laid-back and instantly recognisable as a Tait classic, Good One slides effortlessly into any social situation be it home, work or recreation.

[More Good One](#)

# Stripe

DESIGNED BY TAIT

Stripe is a sophisticated stool constructed with sustainable timber seat and steel frame. Featuring a stripe across its seat, Stripe fits equally across indoor or outdoor applications.

Above: Stripe Stool, Counter Height

[More Stripe](#)

# Element

DESIGNED BY ADAM GOODRUM

Element is a stylish modern fire pit that makes a striking, architectural-inspired statement. Constructed of three interlocking blades of cantilevered mild steel with a blackened, matte finish and a sculptural profile.

# Sustainability

Tait is committed to continually improving sustainability outcomes throughout their operations, whilst producing beautiful, high-performing, and authentic design made to last.

Tait's sustainability program extends to the following key areas:

Environmental & Waste Minimisation; Local Manufacturing; Materials, Finishes & Processes; Energy Efficiency; Product Lifecycle, Stewardship & Quality.

Tait's key sustainability measures include

- Each year Tait offsets approximately 60 tonnes of CO2 from entering the atmosphere via solar.
- 95% of Tait's products are made in Australia.
- Tait products enjoy a long lifespan, and Tait offers a refurbishment service to extend their life.
- Tait's products are predominantly made from environmentally-friendly materials.
- Tait's recycling program includes the recycling of all soft plastics as well as metals, timbers and foam offcuts.
- Tait's cardboard packaging is sourced from sustainably grown, reforested plantations, and their soft plastic bag packaging is 100% recycled.

Sustainability
