

Jil Bar Table

Technical Specifications

Tait.

UPDATED · 04.08.25

FEATURES

- Triple coated mild steel frame
- UV stable powder coat colour or galvanised finish
- UV stable nylon glides
- Top options include spun metal & compact laminate

The Jil Premium Outdoor Bar Table is a new design classic. A timeless profile transcendent of fads, Jak & Jil's wireframe structure delivers graceful form and a fine-lined silhouette. Designed by [Justin Hutchinson](#) for Tait, this cohesive collection incorporates dining and bar compositions, occasional tables and a variety of seating options.

Perfect for home, hospitality, work – inside and out – mix and match finishes from a wide range of durable, powder coat colours and top options.

The [Jak seating](#) ensemble has graceful form, fine-lined profiles and stylishly tilted backrests. Jil Tables are elegant outside and in and take shape in [Dining Table](#), Bar Table, [Coffee](#) and [Side Table](#) formats that can pair with a range of tops.

The Jak & Jil Collection is manufactured with mild steel and the Jak seat pad, incorporating premium exterior-grade foam and upholstered in a selection of luxurious outdoor fabrics, softens the raw materiality of the collection, providing superior comfort.

The Jak & Jil Collection is revered by architects and designers alike for its ability to speak to a range of residential and commercial contexts along with the assurance of genuine local manufacture using sustainable methodologies, quality craftsmanship supported with a manufacturer guarantee and product longevity.

Spanning commercial to residential and hospitality to corporate applications, each piece in this comprehensive collection is designed for outdoor use, though is equally at home indoors.

See [Tait's Table & Seating Guide](#) for an indication of how many seats may fit this table.

All Tait pieces are made locally and come with a 5-year warranty.

Tait's original designs are protected under design registration and copyright.

How to care for your Jil Bar Table

Tait.

GENERAL CARE

At Tait, we make products for life. Our products are crafted from high-performance materials designed to withstand the elements across our diverse Australian climate zones. We make design decisions with both form and function in mind, combining timeless and cutting-edge designs with beautiful finishes in order to elevate your outdoor (or indoor) experience.

Our collections are handcrafted from weather-resistant materials, making each piece a durable choice. In order to maintain their look and feel over time, Tait items need ongoing care and maintenance. The frequency of maintenance will vary depending on the level of care you want to provide, your personal standards and requirements as well as the environment within which the product lives.

Please refer to the care instructions relevant to the specific materials and finishes of your product, and take note of the warranty details to understand the parameters.

We finish making our products by hand, and know they can live a long and useful life when equally cared for in your hands. For those rare occasions where it's needed, we offer a 10-year structural warranty (Australia only), made possible by the stringent quality control standards within our factory on Wurundjeri Land in Thomastown, Victoria.

The warranty does not cover:

- Damage from mishandling, mistreatment, abuse or lack of maintenance.
- Natural ageing, general wear and tear and fading.
- Damage from organic or man-made matter including mineral deposits, soils and fertilisers; or from the build-up of environmental mould.
- Corrosion spots at the weld joins (which do not affect the structural integrity of the product and are a natural outcome of the material used).
- Corrosion of steel furniture and parts as a result of hard seafront or chlorinated environments.
- Any variations in colour, shade or gloss levels of finishes including stone tops and timbers.
- Changes of heart based on personal preference.
- Transportation costs for replacement parts/products, or labour costs for repair (these are charged at our discretion)
Goods that have been held in storage for any period (due to the potential impact of environmental extremities in certain storage facilities).
- Tait offers a 1-year warranty on upholstery, this includes foam and finishing (stitching, zips etc).

The above Tait warranty terms are accepted by the customer and end-user upon order and supply.

COMPACT LAMINATE COLOUR

CARE & MAINTENANCE

Tait use FunderMax exterior high-pressure laminates (HPL) which offer extremely effective durability in outdoor and high-use (commercial) applications. Exceptionally hard-wearing, these products are:

- scratch resistant (not scratch-proof)
- easy to clean-solvent resistant
- extremely weather resistant
- impact resistant
- offer optimal UV light fastness.

COMPACT LAMINATE CONSTRUCTION

Compact laminate is constructed with layers of paper, dipped in resin and cured. These layers are then sandwiched between the laminated top and bottom sheets and compressed. A process called polymerisation melds them all together creating a solid-core panel that is an extra tough durable laminate.

CARING FOR YOUR COMPACT LAMINATE

DO:

- Dust with a soft, dry (we prefer microfibre) cloth
- Wipe up spills using a damp (we still prefer microfibre) cloth
- For persistent stains use hot water and household detergent, then remove with clean water or window cleaning agent
- Repeat several times if necessary
- Rub surface dry with an absorbent clean cloth (we prefer paper towel) to prevent streaks or smears

DO NOT:

- Use steel wool, metallic scrapers or strong solvents to clean

Careless handling, treatment or misuse of our products can result in damage and is not covered under our manufacturer's warranty. Dark colours will show marks and scratches more easily.

PLEASE CONSIDER THE ENVIRONMENT BEFORE PRINTING

How to care for your Jil Bar Table

Tait.

FunderMax high-pressure laminates are extremely effective and particularly suitable for outdoor applications. The product has been chosen for its high weather resistance, optimal light-fastness and scratch resistance.
The laminate is not scratch-proof, with small nicks and scratches deemed general wear and tear. Small marks from the manufacturer's processing may be evident. These are deemed acceptable and are not covered by Tait warranty.

Please refer to the compact laminate section of the care and maintenance instructions.

All compact laminates are bound by the warranty of the manufacturer. Tait provides no warranty direct or indirect, implied or referred.

GALVANISED STEEL

CARE & MAINTENANCE

Hot-dip galvanising a mild steel frame provides an extra layer of protection from corrosion. We offer a galvanised finish on some of our steel products specified for use in extreme environmental conditions, or for those seeking an industrial aesthetic.

For the technically inclined and detail-oriented, here are some fun facts about a galvanised steel finish:

- It has a protective zinc coating which gives a sacrificial layer that inhibits corrosion of the base metal
- Tait uses the hot-dip galvanizing method whereby each piece is submerged in a bath of molten hot zinc
- It is very low-maintenance
- It's the Real McCoy of industrial finishes and so surface irregularities, such as small bumps and surface coarseness will be apparent but is all part of the appeal
- It is bright silver when new and will gently dull over time. But don't we all...

We offer a hot-dip galvanised finish on the following collections:

-Jak & Jil, Flint Collection , Kink Collection, Stripe Stool

No specific maintenance is required; however, we recommend washing your galvanised products with water and a soft brush every six months to remove dirt and debris build-up.

Careless handling, treatment or misuse of our products can result in damage and is not covered under our manufacturer's warranty.

WARRANTY

Galvanised steel is an industrial finish which offers superior corrosion protection. Surface irregularities, such as small bumps and surface coarseness may be apparent and are characteristic of the finish. Whilst care is taken to remove these irregularities where possible, they are a result of the galvanising process and are not covered under warranty.
