

Linear Side Table

Technical Specifications

Tait.

UPDATED - 13.10.21

The Linear Side Table is a deftly modern outdoor side table.

Outwardly typical, look closer and you'll see why Linear has become a Tait classic. Choice materiality selected on the basis of sustainability, durability and artistry combined with expert handcraftsmanship give Linear its minimalist, clean-lined aesthetic. Signature irregular slats adding optical texture to its form giving it an understated, perfectly executed, surprising detail that makes it "a Tait".

- Residential Orders: 8 weeks.
- Commercial Order (based on quantity): 10 - 12 weeks
- For orders outside Australia, please contact international@madebytait.com.au

Clean lines and a cool aesthetic define The Linear Side Table by Tait.

Featuring [Dining](#), [Sunlounge](#) and Side Table with signature irregular slats adding optical texture to each form, Linear is the cornerstone of Tait's established reputation for quality and attention to craft.

The frame, of marine-grade stainless steel construction, can be polished or finished in a range of powder coat colours and works in concert with the contrasting timber or compact laminate top. Supremely flexible, The Linear Collection is a timeless setting that can be tailored to your space in a range of standard and bespoke shapes, heights and sizes.

The Sunlounge and Side Table provides a natural lounging extension to the collection. Optional wheels on the [Linear Table](#) for ease of mobility make it perfect for home, hospitality and commercial settings, indoors and out.

The Linear Collection is revered by architects and designers alike for its ability to speak to a range of residential and commercial contexts along with the assurance of genuine local manufacture using sustainable methodologies, quality craftsmanship supported with a manufacturer guarantee and product longevity.

Spanning commercial to residential and hospitality to corporate applications, each piece in this comprehensive collection is designed for outdoor use, though is equally at home indoors.

All Tait pieces are made locally and come with a 5-year warranty.

Tait's original designs are protected under design registration and copyright.

How to care for your Linear Side Table

GENERAL CARE

The holy grail of outdoor furniture manufacturing is finding those mystical materials that neither weather nor fade under the extreme conditions of the great Australian outdoors. At Tait, we will not rest in our quest to find them, but in the meantime, we will keep on using the most premium materials we have at our disposal and tell you how to keep them at their best.

Here at Tait, our purpose is simple. To make beautiful outdoor furniture that's designed to last – at least – a lifetime. Our craft is combining high-performance materials, robust and durable enough to withstand the diverse Australian elements, with timeless, cutting-edge design in order to elevate the outdoor experience.

Put simply, Tait is where handmade, high-end design meets down-to-earth performance.

Like owning a luxury car, some TLC on your part will keep your Tait pieces ship shape, allowing them to weather and age gracefully over the seasons. The frequency of maintenance will vary depending on your personal standards and requirements as well as the environment in which the products live.

Careless handling, treatment or misuse of our products can result in damage and is not covered under our manufacturer's warranty. Please refer to the materials and finishes relevant to your product as outlined.

EXCLUSIONS

The warranty does not cover damage from mishandling, misuse, physical or chemical abuse, by not following proper care and maintenance instructions, accidental damage, damage from chipping, cracking, impact damage or breaking due to customer abuse.

- The warranty does not cover fading or natural ageing of the timber, non-structural defects in the timber, naturally occurring timber features, surface and end checking, or lack of maintenance leading to an acceleration of any of these issues.
- The warranty does not cover corrosion originating from scratches or abrasions that result from general wear and tear and which cannot be removed via standard cleaning and maintenance processes.
- The warranty does not cover any occurrence of any detritus, organic or man-made matter settling on the product surface. The warranty excludes buildup of mineral deposits leaching from soils and fertilisers, should it occur on Tait's planters. Nor does this warranty cover any product corrosion directly caused by aforementioned matter.
- The warranty does not cover minor corrosion spots at the weld joints: under table tops, bases and seat frames. These do not affect the structural integrity of the product and are a natural outcome of the material used.
- The warranty does not cover the corrosion of steel furniture and parts, including stainless steel, as a result of direct use in harsh seafront locations or in a confined, chlorinated environment.
- The warranty does not apply to normal wear and tear or natural fading of the materials used.
- The warranty does not apply to any variances in colour, shade or gloss level of finishes, stone tops and timbers.
- The warranty does not cover products that the customer decides they do not like following delivery, including to colour, fabric, timber or other opinions based on personal preference.
- Tait shall not be liable for, and specifically excludes, any claims caused directly or indirectly by any event or matter beyond its control, including incidental, consequential or contingent damages suffered as a result of the use of the furniture or a breach of this warranty either written or implied.
- All products purchased at a sale price are subject to the specific warranty conditions outlined on sale invoice.
- The warranty does not cover transportation costs for replacement parts and products or labour costs for repair. These costs may be charged at our discretion.

Please note: Tait cannot provide product refurbishment requests or non-urgent warranties during the period of October 1st – January 30th.

The above Tait warranty terms are accepted by the customer and end-user upon order and supply.

POWDER COAT

CARE & MAINTENANCE

Wash regularly with warm soapy water and mild detergent using a soft cloth (in mild environments every 6 months). For commercial, industrial or marine environments we recommend monthly maintenance. Always rinse well with water, to remove any remaining detergent.

Avoid steam cleaning, pressure washing, abrasive cleansers, steel brushes/wools and cleaners containing chlorine. Avoid scratching the surface by dry dusting. Never use strong solvents to clean powder coated surfaces. Aggressive solvents such as turpentine, white spirits, thinners, citrus based cleaners, Spray and Wipe, and other aggressive solvents are harmful to the extended life of the powder coated surface. Dull surfaces can be revived using a cream cleanser or car polish. Do not allow detritus, organic or man-made matter to settle on the product surface. We recommend removing any buildup of mineral deposits leaching from soils and fertilisers, should it occur on Tait's planters.

Rough treatment of powder-coated furniture can result in chipping of the coated surface; this is not covered under warranty.

Most Tait products come with protective fittings – stacking glides, bumpers, socks/feet and glides. These aid protection against chipping and scratching. Powder coated stacking chairs are designed to be set in place gently.

Touch-up paint may be purchased on request. It is advisable to repair minor nicks and scratches as soon as they appear.

How to care for your Linear Side Table

Tait.

WARRANTY

Powder coat is a decorative finish for indoor and outdoor use. While it assists with metal protection, it is not a corrosion protection in its own right. The components of Tait powder coated products are produced in either aluminium, stainless steel or mild steel.

The mild steel base materials are treated with two levels of pre-protection that guard against corrosion. The products are then powder coated to make the surface resistant to corrosion and suitable for use in exterior environments.

Minor corrosion spots at the weld joints - under table tops, bases and seat frames, may be evident on mild steel products. These do not affect the structural integrity of the product and are not covered by the Tait warranty.

Whilst every care is taken to provide the most suitable finish according to the use and the environment the product will be subjected to, Tait cannot guarantee this decorative finish against scratching, scuffing, chipping, fading or corrosion as a result of use in harsh seafront/extreme environments.

Tait offer a range of powder coat colours which offer excellent UV stability and are suitable for use in outdoor applications. Whilst powder coat offers excellent colour retention, natural fading is not covered under the Tait warranty. To ensure longevity of this finish please refer to the care and maintenance.

The warranty does not cover any occurrence of detritus, organic or man-made matter settling on the product surface. The warranty also excludes buildup of mineral deposits leaching from soils and fertilisers, should it occur on the surface of Tait's planters. Nor does this warranty cover any product corrosion directly caused by aforementioned matter.

Please note: Tait cannot provide product refurbishment requests or non-urgent warranties during the period of October 1st - January 30th.

COMPACT LAMINATE COLOUR

CARE & MAINTENANCE

Tait use FunderMax exterior high-pressure laminates (HPL) which offer extremely effective durability in outdoor and high-use (commercial) applications. Exceptionally hard-wearing, these products are:

- scratch resistant (not scratch-proof)
- easy to clean-solvent resistant
- extremely weather resistant
- impact resistant
- offer optimal UV light fastness.

COMPACT LAMINATE CONSTRUCTION

If you really want to hear nothing but the clatter of cutlery on crockery at your next dinner party, did you know that compact laminate is constructed with layers of paper, dipped in resin and cured? These layers are then sandwiched between the decorative laminated top and bottom sheets and compressed. A process called polymerisation melds them all together creating a solid-core panel that is an extra tough durable laminate.

CARING FOR YOUR COMPACT LAMINATE

DO:

- Dust with a soft, dry (we prefer microfibre) cloth
- Wipe up spills using a damp (we still prefer microfibre) cloth
- For persistent stains use hot water and household detergent, then remove with clean water or window cleaning agent
- Repeat several times if necessary
- Rub surface dry with an absorbent clean cloth (we prefer paper towel) to prevent streaks or smears

DO NOT:

- Use steel wool, metallic scrapers or strong solvents to clean

Careless handling, treatment or misuse of our products can result in damage and is not covered under our manufacturer's warranty.

WARRANTY

FunderMax high-pressure laminates are extremely effective and particularly suitable for outdoor applications. The product has been chosen for its high weather resistance, optimal light-fastness and scratch resistance.

The laminate is not scratch-proof, with small nicks and scratches deemed general wear and tear. This is not covered by Tait warranty.

Please refer to the compact laminate section of the care and maintenance instructions.

All compact laminates are bound by the warranty of the manufacturer. Tait provides no warranty direct or indirect, implied or referred.

Please note: Tait cannot provide product refurbishment requests or non-urgent warranties during the period of October 1st - January 30th.

How to care for your Linear Side Table

Tait.

STAINLESS STEEL

CARE & MAINTENANCE

Stainless steel is the bee's knees in terms of anti-corrosion, longevity and lower-than-low-maintenance. Here at Tait we use both electro and hand polished stainless steel and looking after it is a piece of cake.

DO:

- Wash your stainless pieces regularly with soapy water and a clean cloth
- If necessary, a Scotch-Brite pad and extra elbow grease will do no harm
- Use a non-abrasive cream cleaner or commercial cleaner for more stubborn marks
- Clean in one direction along the original polish lines

DO NOT:

- Use steel wool or metallic scrapers
- Allow dirt to accumulate

A WORD ON TEA-STAINING

In a salty sea-air environ stainless steel can be prone to "tea-staining" (usually within 5km of the surf) recognisable by surface discolouration caused by a build-up of environmental elements.

Tea-staining is no cause for alarm as it is purely cosmetic and does not affect the structural integrity of the material. An electro-polished finish will reduce the occurrence of tea staining, but should it occur, it will clean right off with hot soapy water and a bit of elbow grease.

Careless handling, treatment or misuse of our products can result in damage and is not covered under our manufacturer's warranty.

WARRANTY

Tait provides a 5-year warranty on stainless steel framework against structural defects. The corrosion of stainless steel and steel parts due to use in a confined chlorinated environment or as a result of direct use in harsh seafront locations which are not covered under warranty. Tea staining will occur on Stainless Steel and is not covered by the Tait warranty.

Please note: Tait cannot provide product refurbishment requests or non-urgent warranties during the period of October 1st - January 30th.

SUSTAINABLE TIMBER

CARE & MAINTENANCE

Tait select premium Accoya Timber and Smoked Oak engineered timbers that provide superior rot-resistance, defy the elements and stay strong for decades and are manufactured using clean technologies and sustainably sourced.

Accoya® Timber is modified by acetylation. Acetylation is a non-toxic process in which radiata pine is soaked in an organic compound related to vinegar, making the wood more resistant to moisture, insects, and rot.

Smoked Oak is thermally modified timber. Thermally modified timber is heated using a totally 'green' chemical-free process to permanently change its properties. Essentially, the timber stops absorbing water and becomes a stable, durable product that resists shrinkage, swelling, decay, rot, mould and insect attack.

Tait's Accoya® and Smoked Oak timber products are coated with the Teknos® water-based Coating System which has been specially formulated for use on high-performance timbers and further assists in protecting the timber from mould, fungus and green algae.

The Teknos® Coating System includes a factory-applied, water-based primer which provides an initial layer of weatherproof protection. The timber is then finished with a water-based topcoat which is available in either a natural/clear finish or a range of translucent tinted colours.

The Teknos® Coating System provides the best level of trans-seasonal UV and moisture protection for your outdoor furniture short of an actual cover.

To comply with warranty requirements, cleaning and maintenance of timbers are obligatory. Please ensure you can prove that care and maintenance has been performed as described below.

Every 3 - 6 months

Depending on finish and exposure, inspect the coated timber for signs of colour loss, dryness and weathering. Re-coat the timber when it begins to show signs of dryness, this helps to maintain its natural beauty and to protect the surface.

To restore the original appearance of timber, only the water-based topcoat needs reapplication following these steps:

How to care for your Linear Side Table

Tait.

- Wash the timber with warm soapy water to remove any dirt and debris

- When timber is thoroughly dry finish with two coats of Teknos topcoat – either opaque or translucent using a brush intended for acrylic-based paint products.

DO NOT sand the timber

Every 6 – 12 months

Surface clean the wooden elements of your outdoor furniture pieces at least twice a year. Wash the surfaces thoroughly with clean water to remove dust, grime and insects. A build-up of dust and grime can lead to the increased growth of green algae and other surface fouling.

Careless handling, treatment or misuse of our products can result in damage and is not covered under our manufacturer's warranty.

WARRANTY

Accoya® timber is perfect for exterior furniture applications. The Accoya® timber component is covered for 5 years from the date of purchase, subject to proper maintenance by the purchaser and fair wear and tear.

Smoked Oak is a thermally modified timber. Smoked Oak is produced using clean, energy-efficient technology to improve both the dimensional stability and the decay resistance of timber. The Smoked Oak timber component is covered for 5 years from the date of purchase, subject to proper maintenance by the purchaser and fair wear and tear.

End and surface checking may appear and is not claimable under warranty.

Any changes in the visual appearance of timber that are directly linked to ageing are not covered by warranty. As timber is a living material, the appearance of its surface evolves naturally over time.

Tait recommends regular maintenance with Teknos coating to reduce colour loss, dryness and weathering. Engineered timbers that have been treated with tinted Teknos coating may fade when placed in direct sunlight. This is not covered by the Tait warranty.

Please note: Tait cannot provide product refurbishment requests or non-urgent warranties during the period of October 1st – January 30th.
