

Voom Side Table

Technical Specifications

Tait.

UPDATED • 23.03.25

Soft curves, opposing textures and a hint of Australian nostalgia emerge as subtle considerations in our latest robust design collaboration with Industrial Designer, Adam Goodrum.

- Powder-coated aluminium frame
- UV stable powder coat
- UV stable nylon glides
- Available with Porcelain Travertine tabletop
- Optional fixing available

Introducing the Voom Side Table – pushing the boundaries between indoor and outdoor living designed by Adam Goodrum for Tait. Partnering with Mokum to exclusively showcase the new dimensional Sole Boucle and Elba designs, our new Voom Collection is a modular, versatile and ergonomic range that mirrors the casual functionality and aesthetic of 60's and 70's Australia, while melding our unmistakable mark of minimalist sculptural form and manufacturing integrity.

Unique both in design and materials, the Voom Collection, designed by Adam Goodrum for Tait is a fusion of soft form, versatility and modularity, with the highest quality manufacturing processes considered from end to end to create tactile and lasting pieces. Created to withstand harsh Australian conditions while providing opportunities for seamless reconfigurations for different functions and occasions, the collection is available in our distinctively Australian colour palettes, once again underpinned by our commitment to sustainability.

Pushing the boundaries between indoor and outdoor living, the Voom Collection can be placed in many configurations, with groupings of loungers and ottomans creating new sofa and sun lounge forms. The collection comprises the [Voom Lounger](#), [Voom Ottoman](#), [Voom Side Table](#), [Voom Round Coffee Table](#) and [Voom Square Coffee Table](#).

All Tait pieces are made locally and come with a 5-year warranty.

Tait's original designs are protected under design registration and copyright.

How to care for your Voom Side Table

Tait.

GENERAL CARE

At Tait, we make products for life. Our products are crafted from high-performance materials designed to withstand the elements across our diverse Australian climate zones. We make design decisions with both form and function in mind, combining timeless and cutting-edge designs with beautiful finishes in order to elevate your outdoor (or indoor) experience.

Our collections are handcrafted from weather-resistant materials, making each piece a durable choice. In order to maintain their look and feel over time, Tait items need ongoing care and maintenance. The frequency of maintenance will vary depending on the level of care you want to provide, your personal standards and requirements as well as the environment within which the product lives.

Please refer to the care instructions relevant to the specific materials and finishes of your product, and take note of the warranty details to understand the parameters.

We finish making our products by hand, and know they can live a long and useful life when equally cared for in your hands. For those rare occasions where it's needed, we offer a 5-year structural warranty (Australia only), made possible by the stringent quality control standards within our factory on Wurundjeri Land in Thomastown, Victoria.

The warranty does not cover:

- Damage from mishandling, mistreatment, abuse or lack of maintenance.
- Natural ageing, general wear and tear and fading.
- Damage from organic or man-made matter including mineral deposits, soils and fertilisers; or from the build-up of environmental mould.
- Corrosion spots at the weld joins (which do not affect the structural integrity of the product and are a natural outcome of the material used).
- Corrosion of steel furniture and parts as a result of hard seafront or chlorinated environments.
- Any variations in colour, shade or gloss levels of finishes including stone tops and timbers.
- Changes of heart based on personal preference.
- Transportation costs for replacement parts/products, or labour costs for repair (these are charged at our discretion)
Goods that have been held in storage for any period (due to the potential impact of environmental extremities in certain storage facilities).

The above Tait warranty terms are accepted by the customer and end-user upon order and supply.

POWDER COAT

CARE & MAINTENANCE

Wash regularly with warm soapy water and mild detergent using a soft cloth. For commercial, industrial or marine environments we recommend monthly maintenance. Always rinse well with water, to remove any remaining detergent.

Avoid steam cleaning, pressure washing, abrasive cleansers, steel brushes/wools and cleaners containing chlorine. Avoid scratching the surface by dry dusting. Never use strong solvents to clean powder coated surfaces. Aggressive solvents such as turpentine, white spirits, thinners, citrus based cleaners, Spray and Wipe, and other aggressive solvents are harmful to the extended life of the powder coated surface. Do not allow detritus, organic or man-made matter to settle on the product surface. We recommend removing any buildup of mineral deposits leaching from soils and fertilisers, should it occur on Tait's planters.

Rough treatment of powder-coated furniture can result in chipping of the coated surface; this is not covered under warranty.

Most Tait products come with protective fittings – stacking glides, bumpers, socks/feet and glides. These aid in protection against chipping and scratching. Powder coated chairs are designed to be set in place gently.

Touch-up paint may be purchased on request. It is advisable to repair minor nicks and scratches as soon as they appear.

When placing a furniture cover over a table for an extended period of time, it is recommended to first place an empty plastic pot plant in the centre of the table, then placing the furniture cover over the top. This will prevent the possibility of the furniture cover adhering to the table surface.

Should you wish to touch up any blemishes which may occur, please contact your nearest Tait showroom and request a Powder Coat Touch Up Kit. Please follow our Powder Coat Touch Up Guide (available under 'Dimensions and Specs - Download Assets' on the product page) for application details.

WARRANTY

Powder coat is a decorative finish for indoor and outdoor use. While it assists with metal protection, it is not a corrosion protection in its own right. The components of Tait powder coated products are produced in either aluminium, stainless steel or mild steel.

The mild steel base materials are treated with two levels of pre-protection that guard against corrosion. The products are then powder coated to make the surface resistant to corrosion and suitable for use in exterior environments.

Minor corrosion spots at the weld joins – under table tops, bases and seat frames, may be evident on mild steel products. These do not affect the structural integrity of the product and are not

Tait.

covered by the Tait warranty.

Whilst every care is taken to provide the most suitable finish according to the use and the environment the product will be subjected to, Tait cannot guarantee this decorative finish against scratching, scuffing, chipping, fading or corrosion as a result of use in harsh seafront, extreme or environments where chlorine is present.

Tait offer a range of powder coat colours which offer excellent UV stability and are suitable for use in outdoor applications. Whilst powder coat offers excellent colour retention, natural fading is not covered under the Tait warranty. To ensure longevity of this finish please refer to the care and maintenance.

The warranty does not cover any occurrence of detritus, organic or man-made matter settling on the product surface. The warranty also excludes buildup of mineral deposits leaching from soils and fertilisers, should it occur on the surface of Tait's planters. Nor does this warranty cover any product corrosion directly caused by aforementioned matter.

Tait assume no responsibility for product damage caused by the use of furniture covers.
